

# Letter of Invitation

## Attention South Asian Parents and Caregivers

This letter is to invite you to participate in a research study that will help identify the needs of South Asian families who have children with autism.

The purpose of the study is to gain a better understanding of South Asian families' needs regarding treatment for their children diagnosed with autism, barriers they may face, and to gain a better understanding of how professionals can help South Asian children with autism.

## Your help is invaluable!

Your participation will require that you complete an in-person or telephone interview, which will take between 45 and 90 minutes. This interview may take place in your home or another quiet, public place if you prefer.

If you are interested, please email Sophia Sunpreet Grewal, B.A., Pacific University at [sophiag@pacificu.edu](mailto:sophiag@pacificu.edu) or call 604-570-5000. Please leave your name and a phone number where you can be reached to set up an interview.

Your participation is completely voluntary. Please understand that the researchers at Pacific University do not know about any treatment that you or your child may receive. We will only know personal details that you choose to provide to us once you agree to participate. If you choose to participate, only the researchers, and no one else, will know of this decision.

Thank you for your time and interest.

Sophia Sunpreet Grewal, B.A.
