

2009 BC MUNICIPAL PARKS AND RECREATION CONTACT INFORMATION

PLEASE NOTE:

Ask if your community provides a discounted access pass for recreation and leisure programs for individuals with special needs. Some communities throughout the Province provide no fee or discounted fees for attendants supporting individuals with special needs. Some communities also offer subsidy support, or diversity support services for individuals with special needs. This may be in the form of support to participate in a regularly scheduled parks/recreation program or perhaps a program that has been specialized for individuals with extra needs. **Leisure Access Cards** are provided to residents who have limited income and require a reduction in fees for basic Recreation and Park Board programs and services. Ask if this program is available in your community.

Fitness Tax Credit - Starting with the 2007 tax year, the Government of Canada allows a non-refundable tax credit based on eligible fitness expenses paid by parents to register a child in a prescribed program of physical activity. The children's fitness tax credit lets parents claim up to \$500 per year for eligible fitness expenses paid for each child who is under 16 years of age at the beginning of the year in which the expenses are paid. If a child qualifies for the disability tax credit, parents can claim up to \$500 per year in eligible fitness expenses paid for the child who is under 18 years of age at the beginning of the year. Also, if at least \$100 in eligible fitness expenses has been paid for the child, an additional amount of \$500 can be added to the eligible fitness expenses actually incurred. Eligible Fitness Programs An eligible fitness expense must be for the cost of registration or membership of an eligible child in a prescribed program of physical activity. Generally, such a program must:

- be ongoing (either a minimum of eight consecutive weeks long or, for children's camps, five consecutive days long);
- be supervised;
- be suitable for children; and
- include a significant amount of physical activity that contributes to cardio-respiratory endurance, plus one or more of: muscular strength, muscular endurance, flexibility, or balance.

For more information about the Children's Fitness Tax Credit, please refer to the Canada Revenue Agency website at www.craarc.gc.ca/fitness

KidSport™ British Columbia - We believe that no kid should be left on the sidelines and all should be given the opportunity to experience the positive benefits of organized sports. KidSport™ provides support to children in order to remove financial barriers that prevent them from playing organized sport. <http://sport.bc.ca/programs/kidSportBC> - 604.333-3430
