

Supporting Children with ASD A workshop by Elizabeth Sparling BCBA.

Elizabeth Sparling, is a Board Certified Behaviour Analyst working with children on the Autism Spectrum in Victoria, B.C. Elizabeth has a background in Special Education, having worked as a Low Incidence Integration Support Teacher for over 10 years. In addition to working with children with special needs, Elizabeth has a 13 year old son with Autistic Disorder. Her passion is to see children participate in the school and community settings with their peers and she recognizes that this can only happen when families, educators and community partners work together.

This 3-hour workshop for parents, caregivers and school personnel, will focus on proactive (antecedent) strategies that can lead to a more positive behavioural response and thus a more fluid integration with peers using Behaviour Change Programming.
